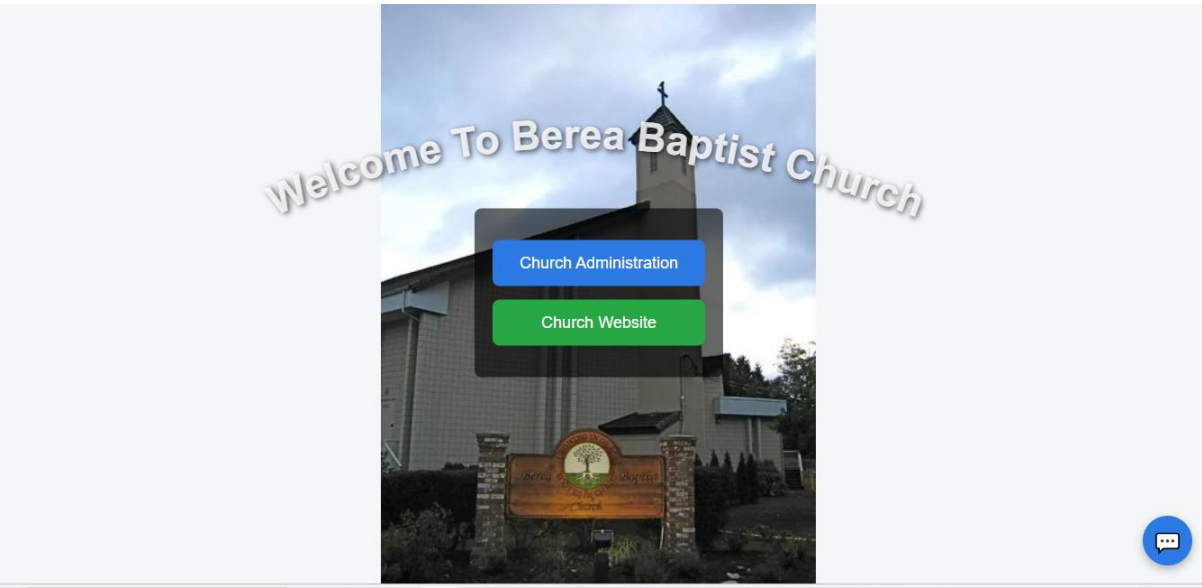
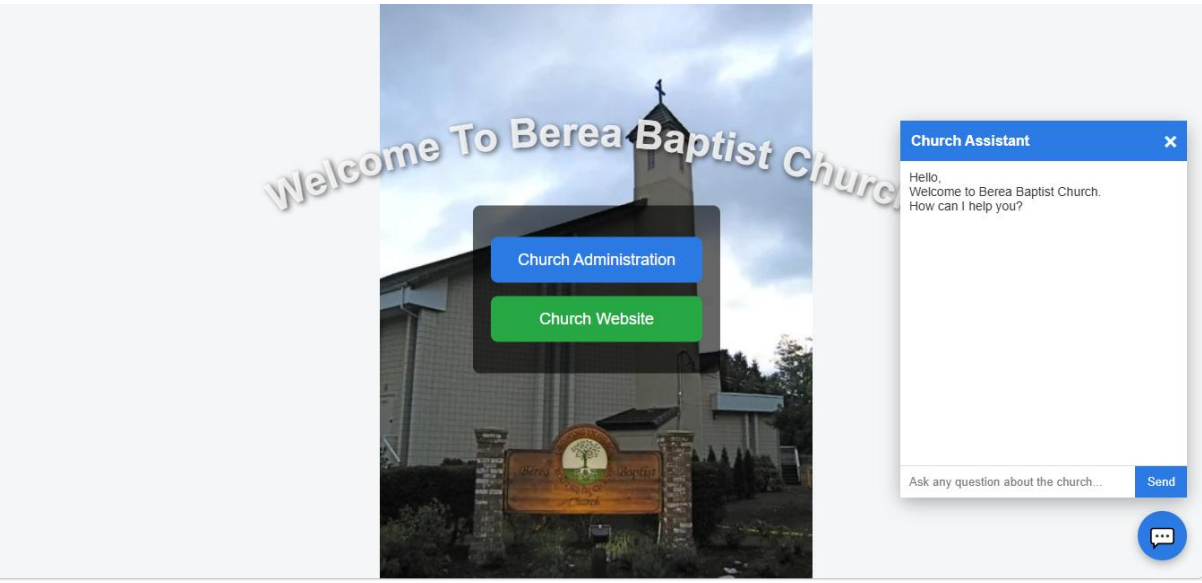
USER GUIDE FOR THE

CHURCH ADMINISTRATION SYSTEM

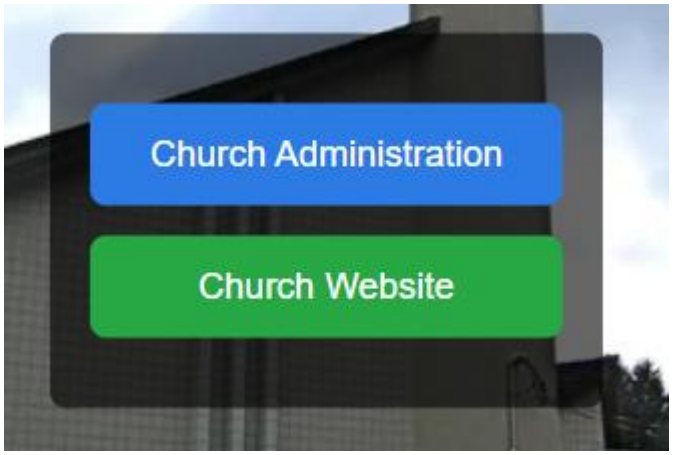
When the application / system starts, it displays the below welcome screen.



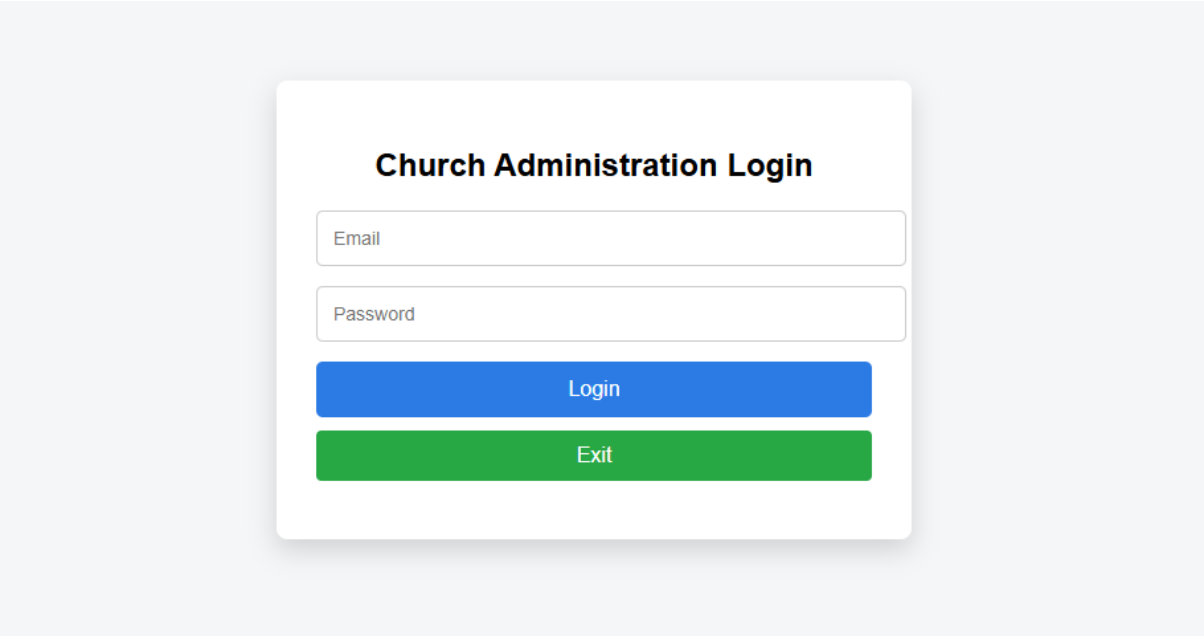
By clicking the chatbot on the bottom right hand corner, user can easily ask any questions about the church and get answers from the chatbot.



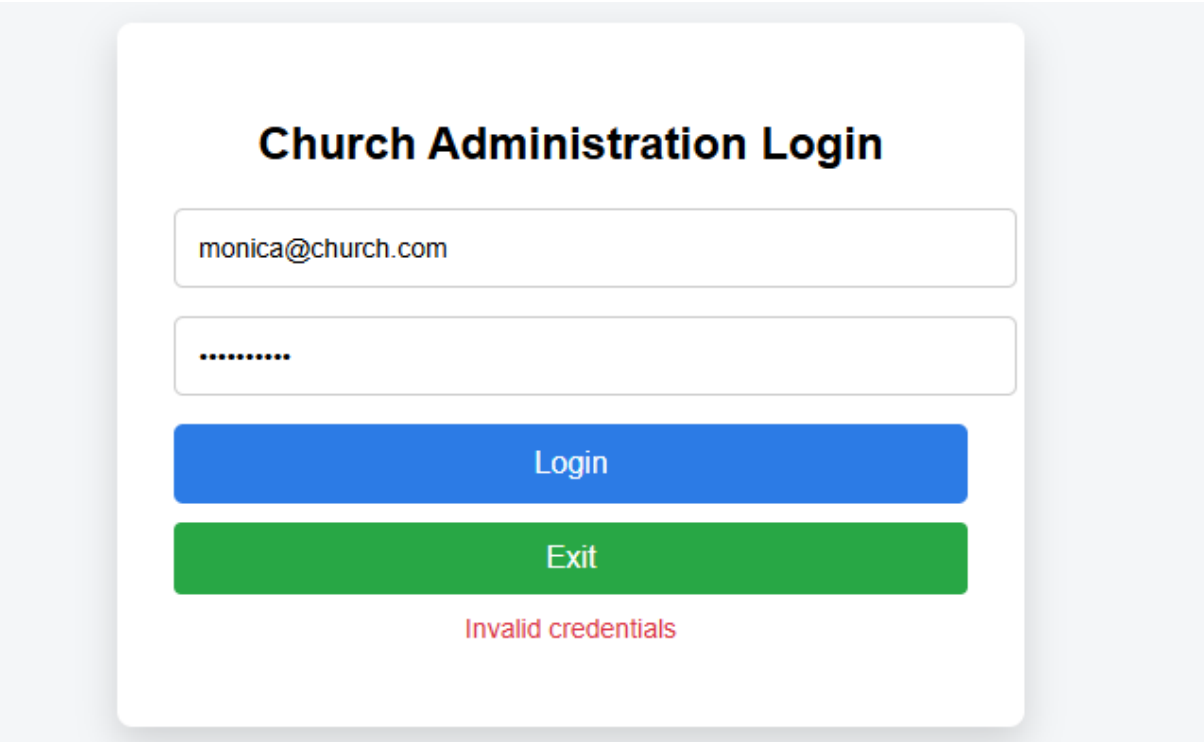
If the user chooses to visit the church website, user can click the green button written (Church Website).



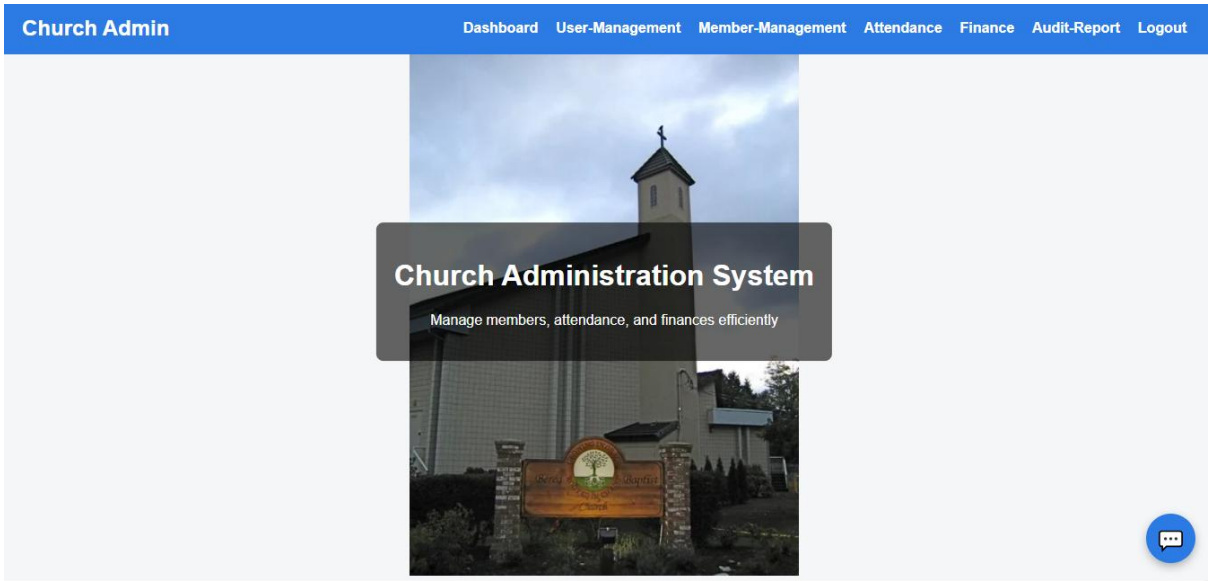
If the user clicks the blue button (Church Administration), the system will direct the user to the below login page, for authentication.



If user enters wrong login information, the below message is displayed on the screen. User can press the (Exit) button to go back to the welcome screen. If user does not have a user profile on the system, the user will need to ask the system administrator to create their login profile on the system.



On successful login to the system, the below screen is displayed. Depending on the user role, the menu items may differ. Below are the menu items viewed by the system administrator.



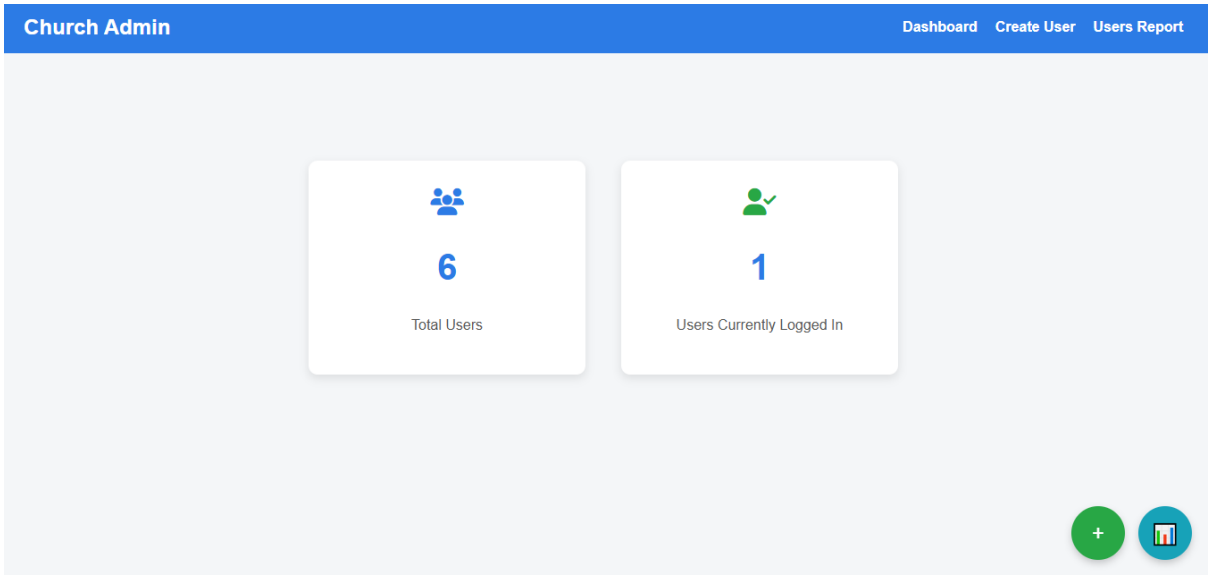
Listed below are the navigation steps through the Dashboard tabs.

1. <u>User-Management</u>

The User-Management menu is only available to the system administrator(ADMIN). Once the administrator clicks the User-Management

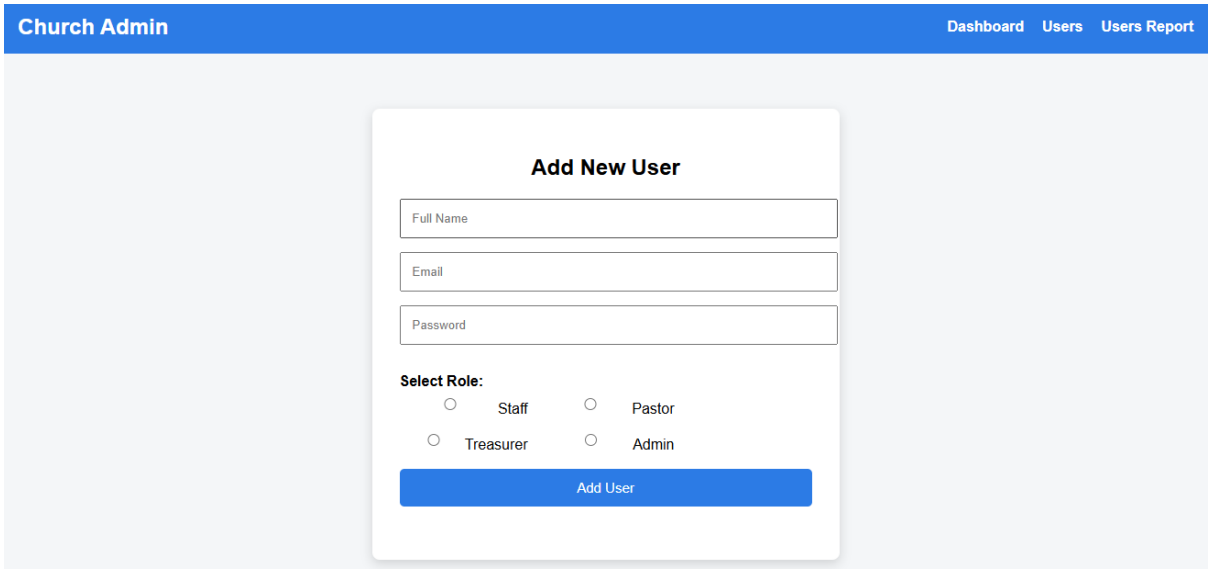
menu tab, the below screen is displayed. This screen displays a summary snapshot of the total system users as well as the total of system users who are currently logged into the system.

By clicking on any of the cards, a report is displayed showing information pertaining to the card.



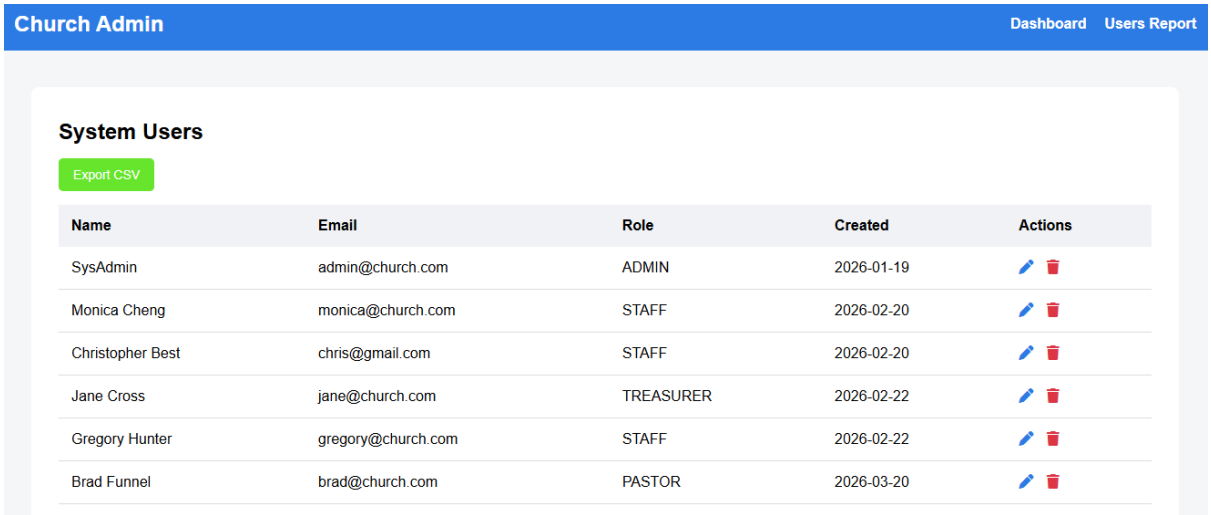
The above screen also has two floating buttons at the bottom right-hand corner. The green button with a + sign is the one for adding new users to the system, whilst the other button is for displaying the system users report.

On clicking the green button with a + sign or clicking the (Create User) tab on the menu bar, the below screen is displayed. This is the screen used by the administrator to create user profiles for users who will be using the system.



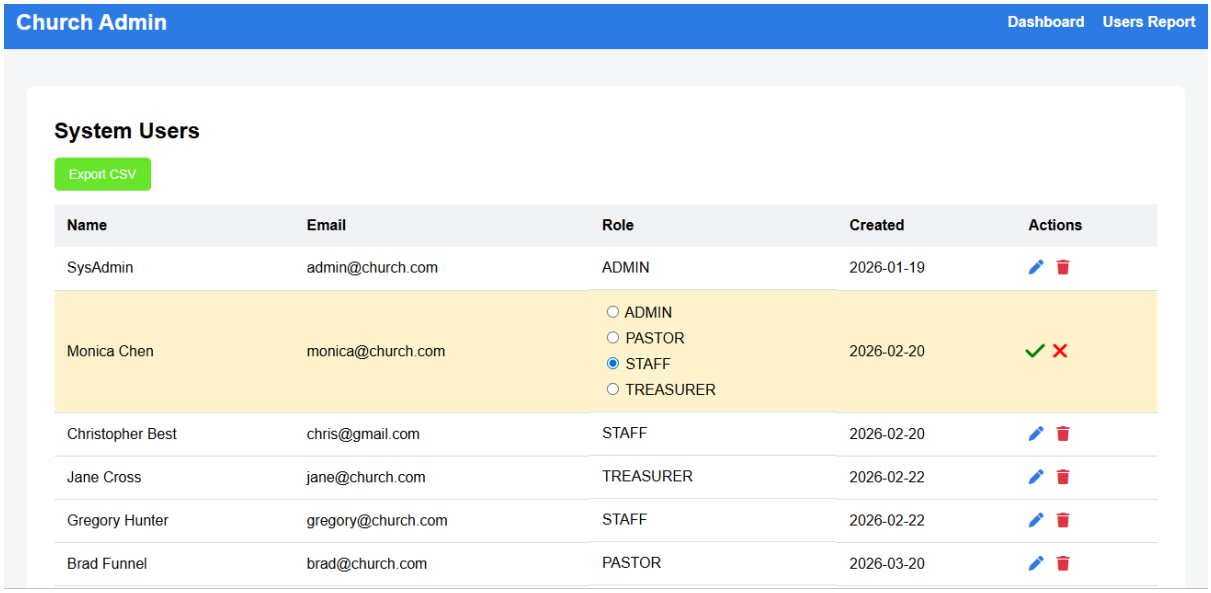
Once the (ADMIN) user is done entering the new user profile information; by clicking the (Add User) button, the information is saved to the church database.

User can view all system users in the church database by clicking the (Users Report) tab on the menu or clicking the floating button on the bottom right corner, with a small bar-chart icon.
On clicking any of the two, the system displays a list of all users who are currently using the system, having different roles and responsibilities.



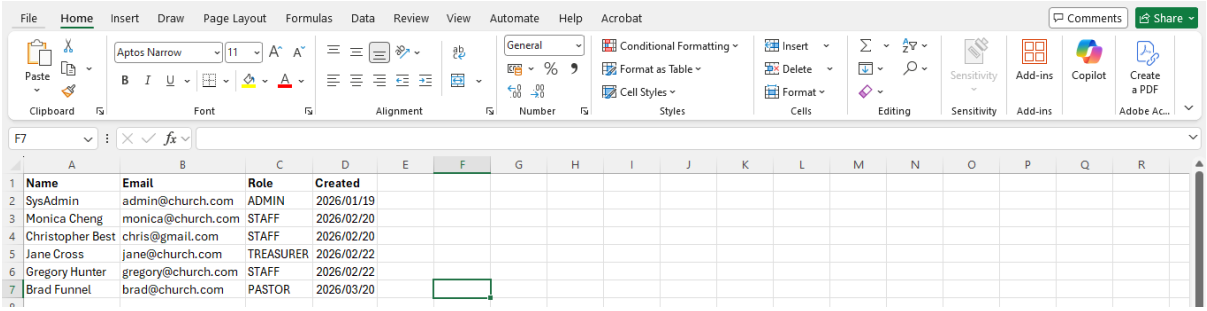
Name	Email	Role	Created	Actions
SysAdmin	admin@church.com	ADMIN	2026-01-19	
Monica Cheng	monica@church.com	STAFF	2026-02-20	
Christopher Best	chris@gmail.com	STAFF	2026-02-20	
Jane Cross	jane@church.com	TREASURER	2026-02-22	
Gregory Hunter	gregory@church.com	STAFF	2026-02-22	
Brad Funnel	brad@church.com	PASTOR	2026-03-20	

The (ADMIN) user can click the edit icon (blue pen) under the actions column to edit any user login profile. The below screen is displayed and the (ADMIN) user can click on any of the fields highlighted in a different colour to edit the field. On clicking the (green tick), the updated user information is saved to the church database. On clicking the X, the changes are undone / reversed.

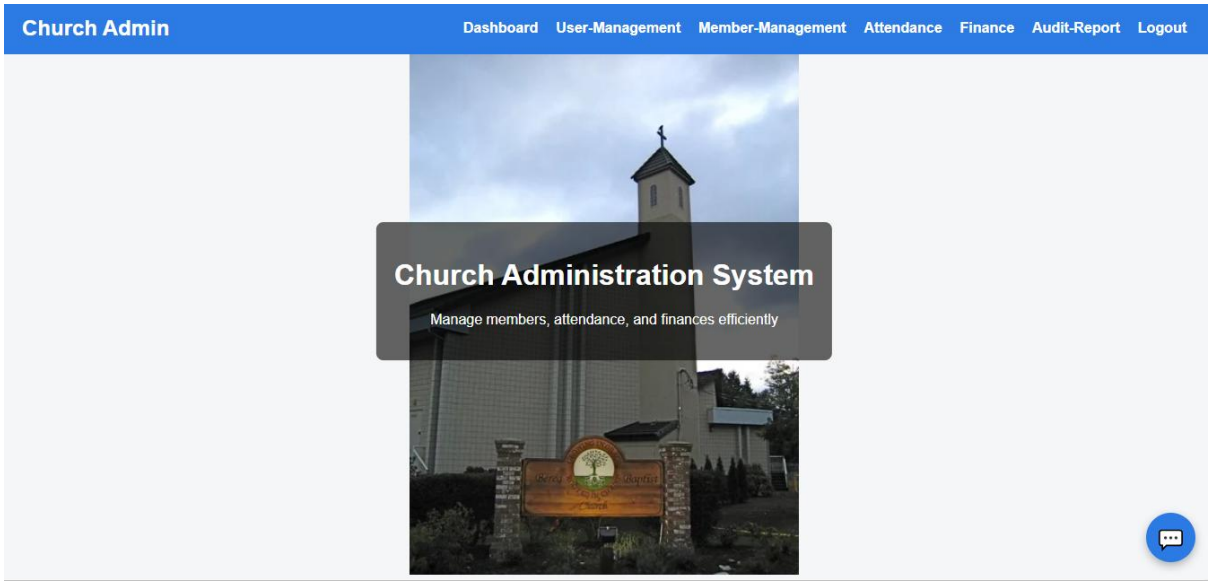


The (ADMIN) user can also delete a user from the system by clicking the delete icon (red bin).

User can click this button on the (Users Report) page to export the report to a csv file, which is downloaded to the downloads folder and can be viewed using Microsoft Excel.



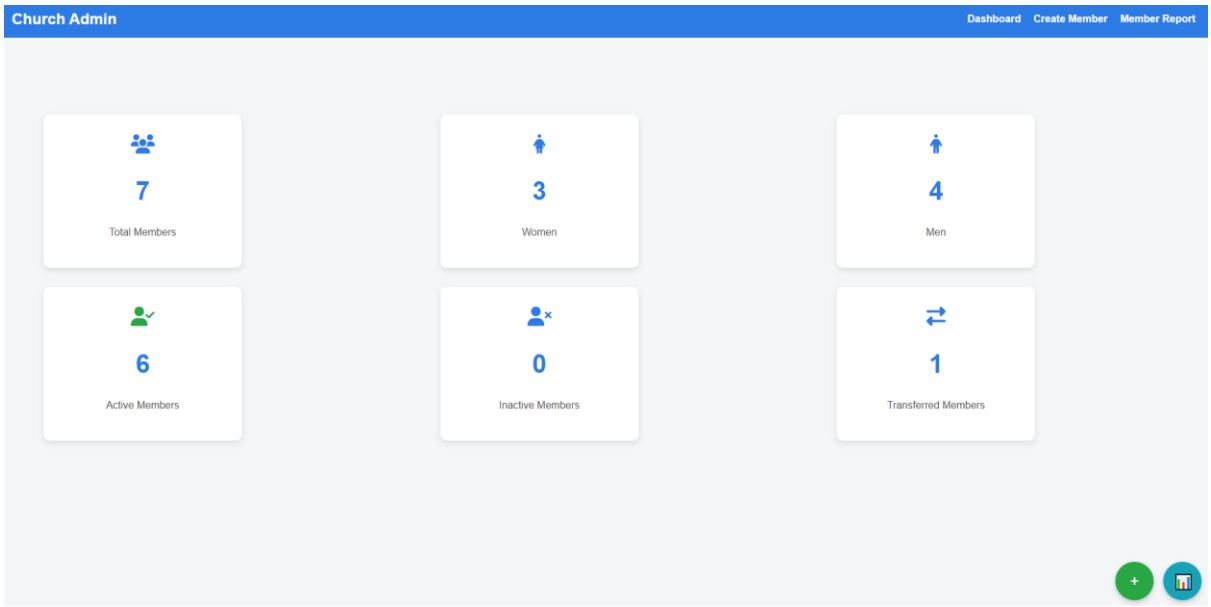
Once the user is done on this screen, user can click the (Dashboard) tab to return to the main screen.



2. <u>Member-Management</u>

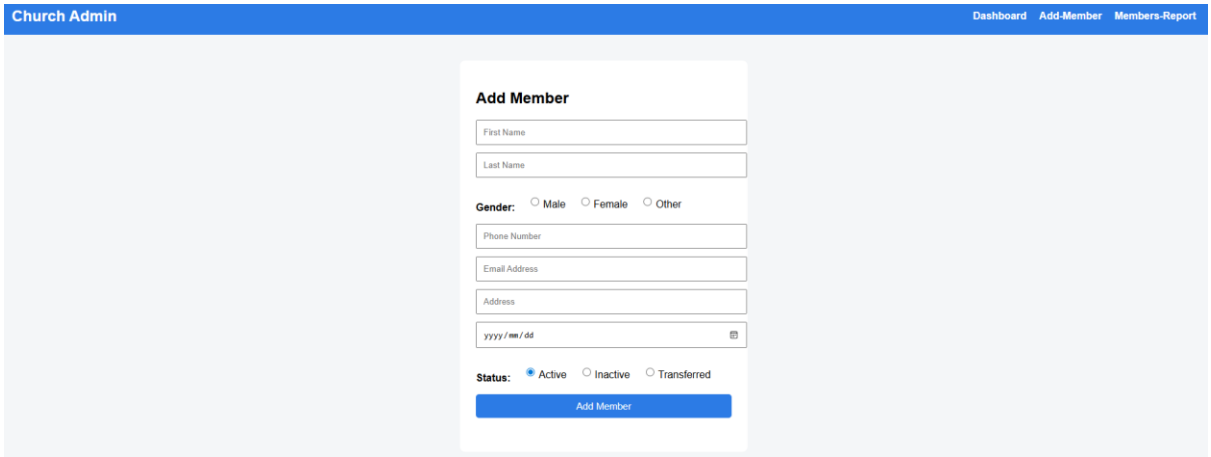
The Member-Management menu is available to all system users. Once the user clicks the Member-Management menu tab, the below screen is displayed. This screen displays a summary snapshot of the total church members, Woman, Men, Active Members, Inactive members, and Transferred members of the church.

By clicking on any of the cards, a report is displayed showing information pertaining to the card.



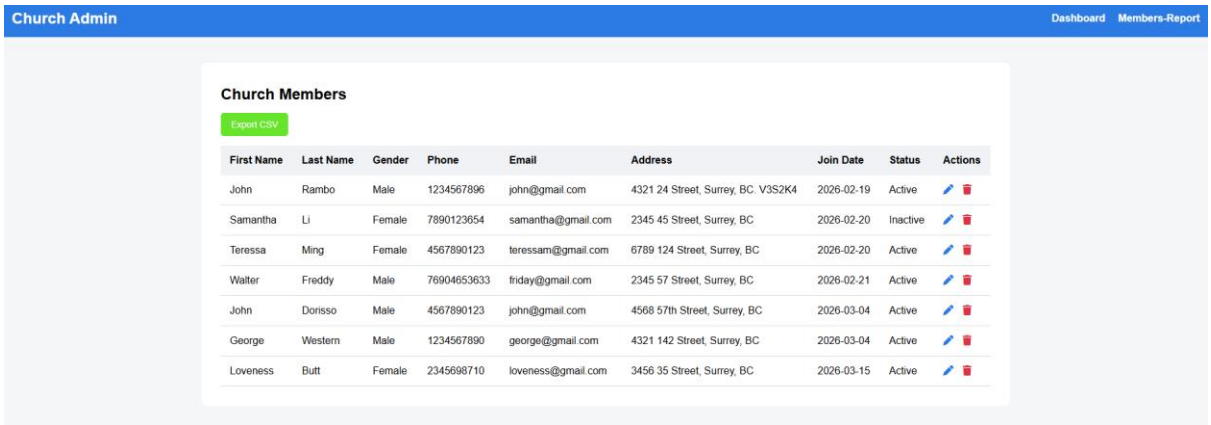
The above screen also has two floating buttons at the bottom right-hand corner. The green button with a + sign is the one for adding new members to the system, whilst the other button is for displaying the members report.

On clicking the green button with a + sign or clicking the (Create Member) tab on the menu bar, the below screen is displayed. This is the screen used to enter new members information, for new members that have joined the church.



Once the user is done entering the new member information, by clicking the [Add Member] button, the information is saved to the church database.

User can view all church members in the church database by clicking the (Members-Report) tab on the menu or clicking the floating button on the bottom right corner, with a small bar-chart icon. This will display a list of all members who are currently on the church database.



First Name	Last Name	Gender	Phone	Email	Address	Join Date	Status	Actions

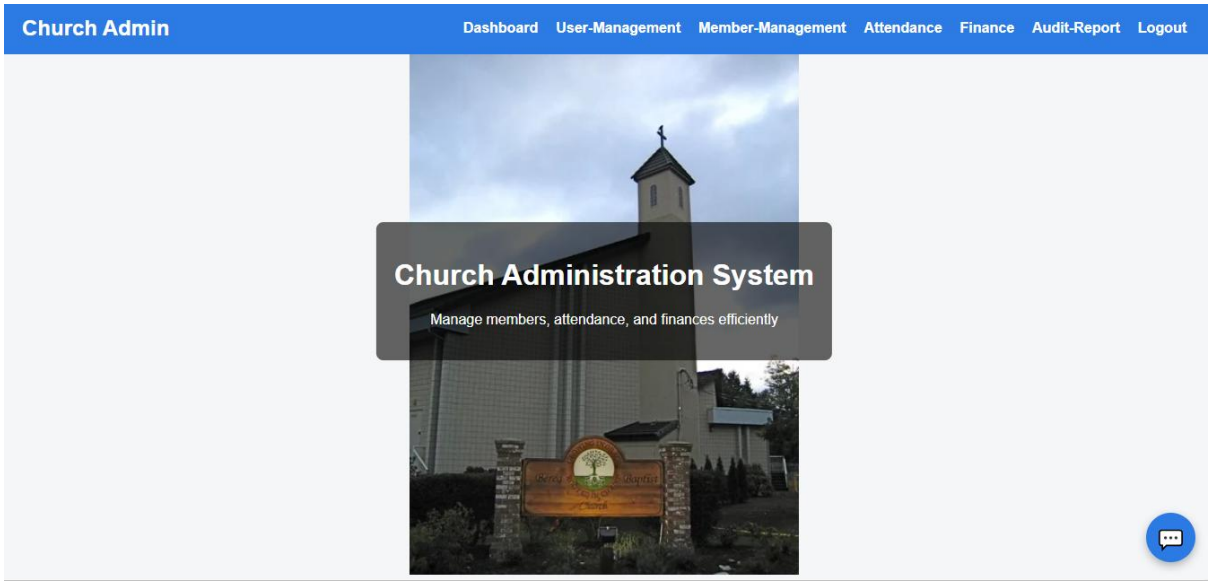
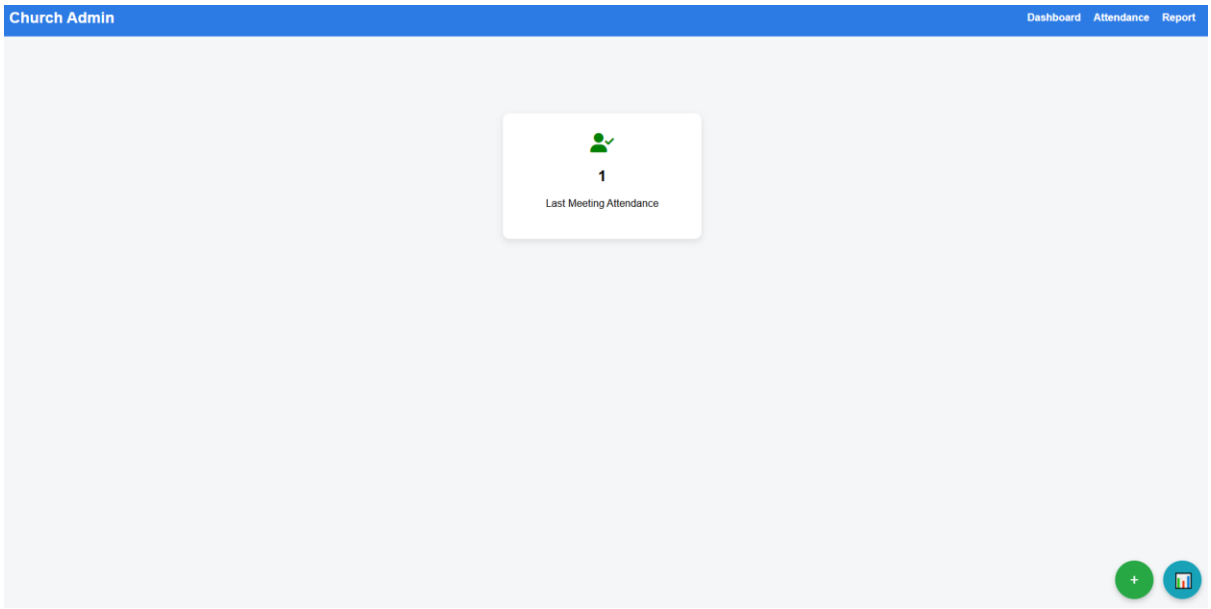
Once the user is done on this screen, user can click the (Dashboard) tab to return to the main screen.



3. <u>Attendance</u>

The Attendance menu is available to all system users. Once the user clicks the Attendance menu tab, the below screen is displayed. This screen displays a summary snapshot of the total attendances for the last church meeting.

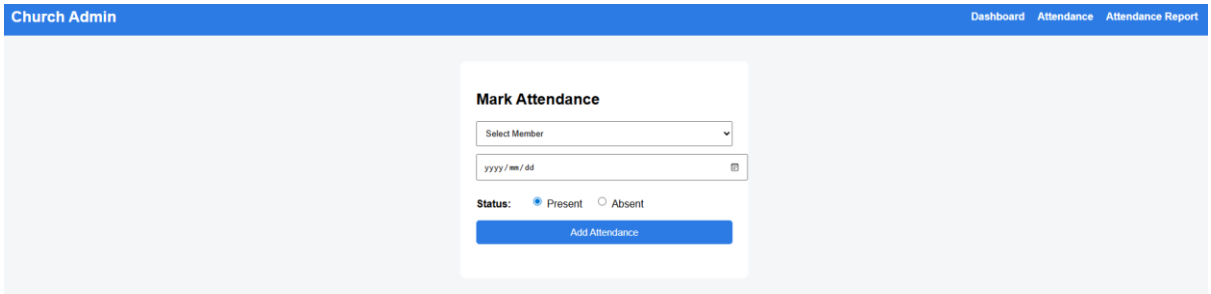
By clicking on the card, a report is displayed showing information for attendances for the last church meeting.



The above screen also has two floating buttons at the bottom right-hand corner. The green button with a + sign is the one for recording / marking

member attendance for church activities, whilst the other button is for displaying the attendance report.

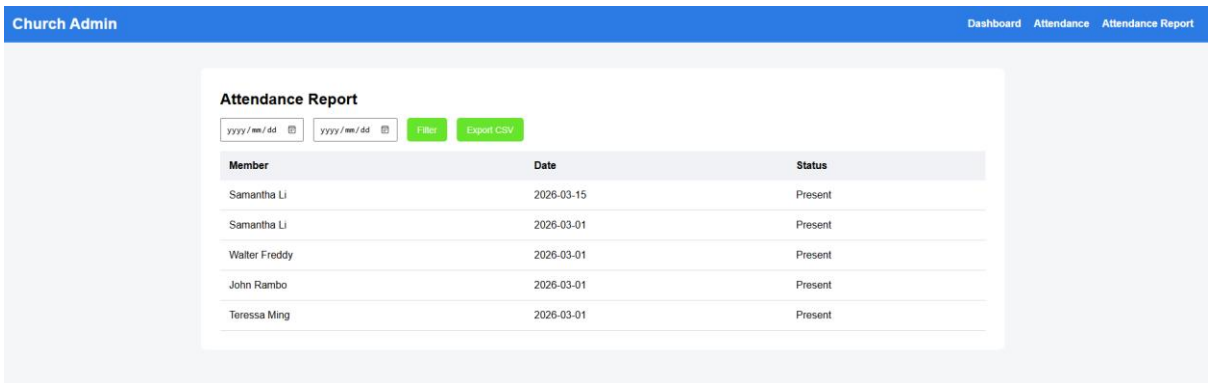
On clicking the green button with a + sign or clicking the (Attendance) tab on the menu bar, the below screen is displayed. This is the screen used to record / mark member attendance for church activities.



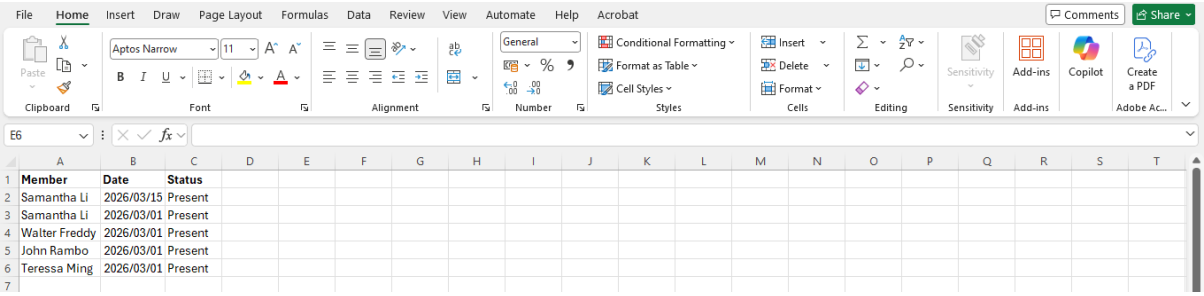
Once the user is done entering the member's attendance; by clicking the (Add Attendance) button, the record is saved to the church database.

User can view a record of all church attendances by clicking the (Attendance Report) tab on the menu or clicking the floating button on the bottom right corner, with a small bar-chart icon. This will display a list of all church attendances.

This report can be filtered using the date, by selecting the date-from and date-to and then clicking the [Filter] button.

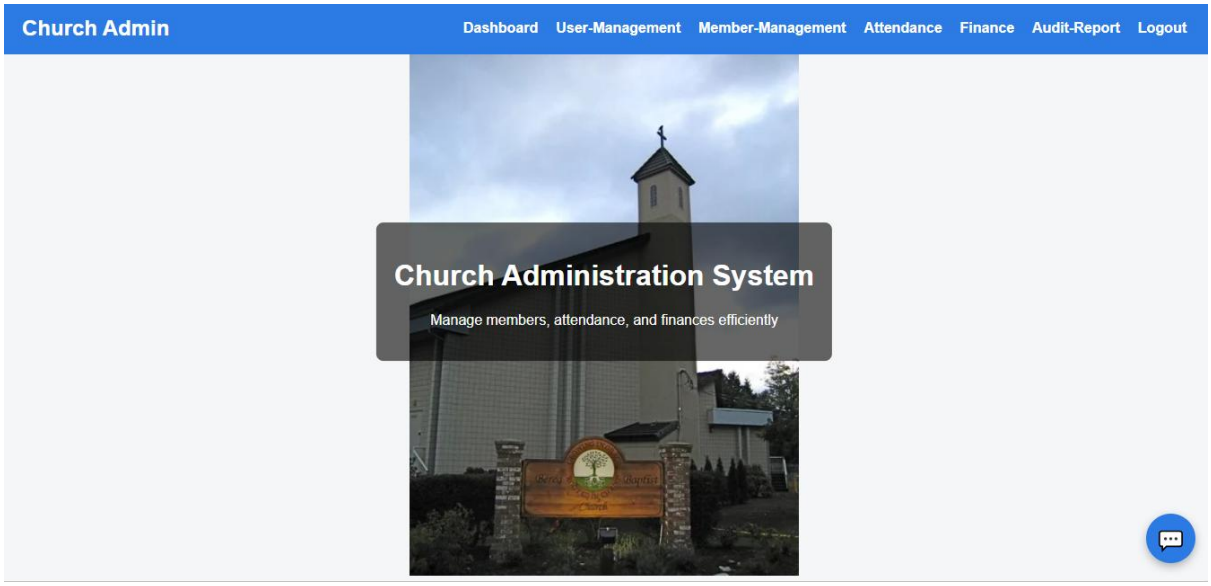


User can click this button on the (Attendance Report) page to export the report to a csv file, which is downloaded to the downloads folder and can be viewed using Microsoft Excel.



Member	Date	Status
Samantha Li	2026/03/15	Present
Samantha Li	2026/03/01	Present
Walter Freddy	2026/03/01	Present
John Rambo	2026/03/01	Present
Teressa Ming	2026/03/01	Present

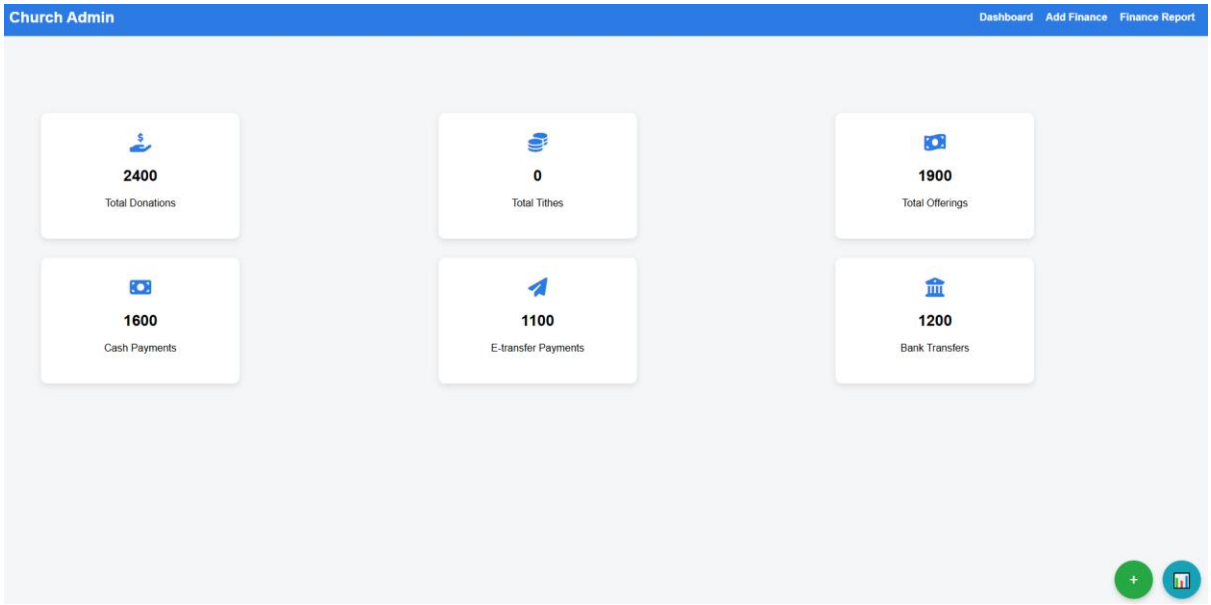
Once the user is done on this screen, user can click the (Dashboard) tab to return to the main screen.



4. Finance

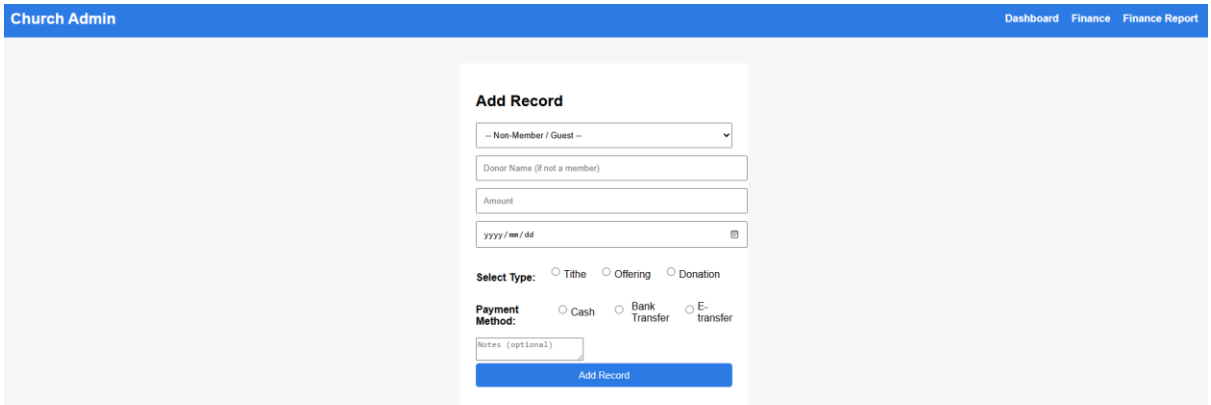
The Finance menu is available to the (ADMIN, and TREASURER) system users only. Once the user clicks the Finance menu tab, the below screen is displayed. This screen displays a summary snapshot of the total Donations, Tithes, Offerings, Cash payments, E-transfer payments, and Bank transfers to the church for the previous month.

By clicking on any of the cards, a report is displayed showing information pertaining to the card.



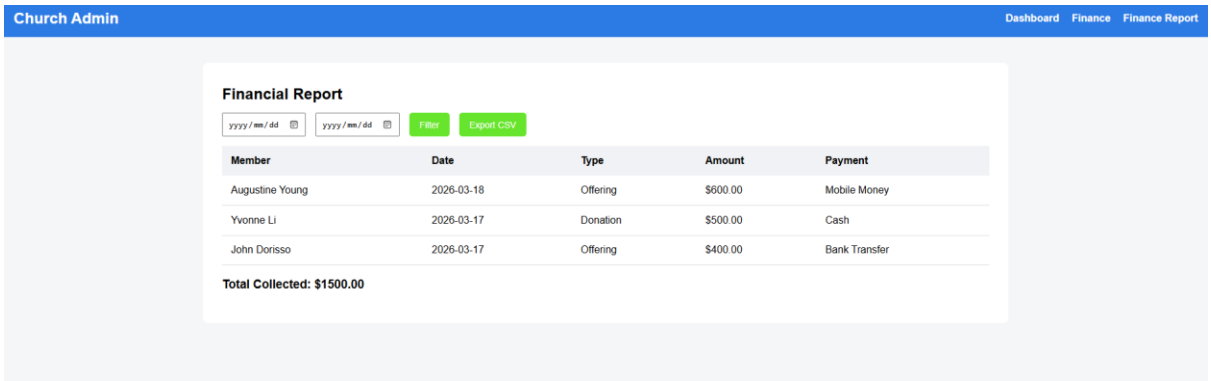
The above screen also has two floating buttons at the bottom right-hand corner. The green button with a + sign is the one for displaying the screen used to enter tithes, offerings, and donations to the church, whilst the other button is for displaying the finance report.

On clicking the green button with a + sign or clicking the (Add Finance) tab on the menu bar, the below screen is displayed. This is the screen used to enter tithes, offerings, and donations to the church to ensuring proper financial record-keeping.

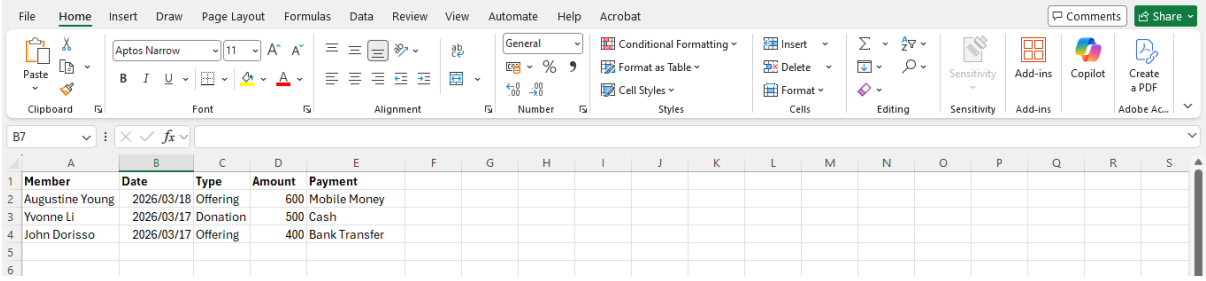


Once the user is done entering the finance record; by clicking the [Add Record] button, the information is saved to the church database. User can view all finance records in the church database by clicking the (Finance Report) tab on the menu or clicking the floating button on the bottom right corner, with a small bar-chart icon. This will display a list of all finance records currently on the church database.

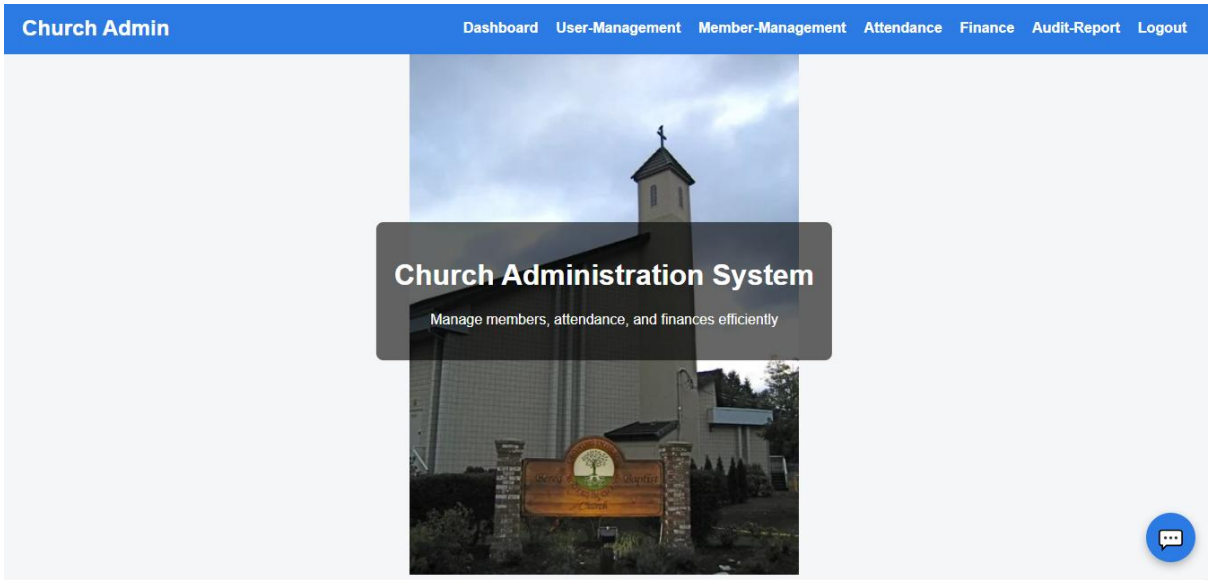
This report can be filtered using the date, by selecting the date-from and date-to and then clicking the [Filter] button.



User can click this button on the (Finance Report) page to export the report to a csv file, which is downloaded to the downloads folder and can be viewed using Microsoft Excel.

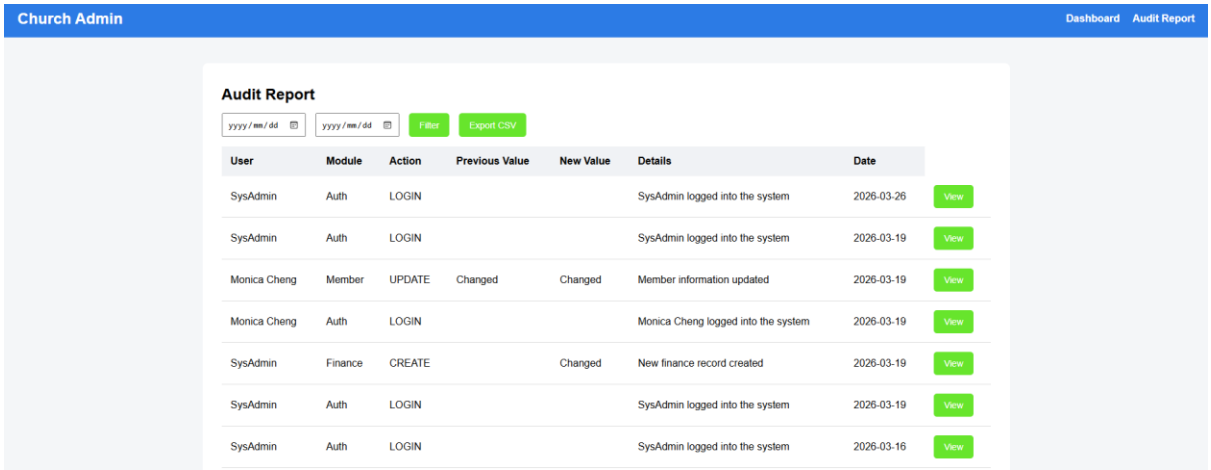


Once the user is done on this screen, user can click the (Dashboard) tab to return to the main screen.



5. Audit-Report

The Audit-Report menu is available to (ADMIN and PASTOR) system users. Once the user clicks the Audit-Report menu tab, the below screen is displayed. This is the screen used to display all audit logs of all users' actions to system data on the church database.



The report has a view button to view the full details of the audit log. On clicking the [View] button the system opens a dialog window displaying the full details of the audit log, as per the below screenshot.

This report can be filtered using the date, by selecting the date-from and date-to and then clicking the [Filter] button.

User can click this button on the (Audit Report) page to export the report to a csv file, which is downloaded to the downloads folder and can be viewed using Microsoft Excel.
